### Superintendent's Highlights

The District finalized its construction projects at the new Payette Lakes Middle School and the new Donnelly Elementary buildings during the 1996-97 school terms. The District Technology Committee has taken the lead with the implementation of well over \$500,000 in new high-tech equipment and software in our classrooms. They are well on the way to connecting all sites to the Internet and networking each classroom and school site via local and wide area networks. Staff were involved in many differing in service opportunities which included Drug Influence Recognition Training, Internet Access Training, as well as having the opportunity to hear presentations from world renown speakers, such as Dr. William Glasser.

Each year the McCall Schools review a selected curriculum and during the 1996-97 term the Curriculum Adoption Committee oversaw a partial implementation of new reading materials. The new implementation included in service on phonics instruction. This implementation will be completed during the 1997-98 school term. The district has chosen to revisit the integration and articulation of our curriculum from Kindergarten through grade 12. It is our intent that all of our programs intermesh to provide our student body with a smooth transition from entry to graduation.
